WALL POSTER · TAX SEASON

Tax season scams are here.

From January to April, scammers go after payroll, employee records and refunds.

1. **"Send me everyone's W-2s."**
   A fake email from the owner to HR or payroll. Always confirm in person or by phone.

2. **"Update your direct deposit."**
   A fake employee asks to move their paycheck. Changes need a call or a visit.

3. **"The IRS is calling."**
   The IRS starts with a letter. It never demands gift cards, wires or crypto by phone.

4. **"Your refund is waiting."**
   Texts and emails with a link to "claim" a refund. The IRS doesn't text or email for this.

5. **"Your tax documents are attached."**
   Unexpected forms from a "tax preparer". Call your real preparer to check.

Not sure? Don't send.

Forward the email to **check@scan.fluxlabs.net**, or call your IT support before anyone shares records or money.
